VISION

Scale nationally with real-time decisioning

Opportunity

Teachers Federal Credit Union has been on an ambitious transformational journey to improve member personalization, enhance the digital experience, and enable efficiency through automation.

Their new Smart Decisioning Platform (SDP) powered by Corridor Platforms is a driving force for innovation!

Products

- Auto Loan (Direct & Indirect)
- Unsecured Installment Loans
- Consumer Credit Cards
- Line of Credit

Teacher's Solution

Corridor Platforms implemented an end-to-end solution called **Smart Decisioning Platform (SDP)** on-premise at Teachers that enabled:

Inhouse Ownership & Transparency

Teachers now OWNs their decisioning process end-to-end. This gives them the agility to rapidly adapt and compete in a fast-evolving financial landscape.

300%+ Increase in Automation

Decision automation has increased by 300%+, enabling better experiences, instantaneous approvals & higher quality loan applications.

One System of Record

The Smart Decisioning Platform is now the central hub for analytics and decision making. It enables Teachers with a '360' view of their members' behaviors.

Robust Governance & Compliance Rail

Teachers has established a robust governance & compliance foundation around the Smart Decisioning Platform, ensuring trust and accountability at every step.

As we continue to expand and enhance our digital capabilities, our national charter allows us to bring the benefits of a Teachers Federal Credit Union membership to more Americans across the country.

Our Smart Decisioning Platform will empower us to scale, reach new communities, and strengthen our ability to compete on a national level.
